Regional Transportation Authority

1. Financial Oversight
2. Regional Planning
3. Compliance (as required by the RTA as mandated in 1995)

The Regional Transportation Authority (RTA) was created by the Illinois General Assembly in 1995 to oversee the approval of a referendum in its six-county northeastern Illinois area. The RTA is a public body with political, legal, and financial oversight of the region's three public transit agencies: the Chicago Transit Authority (CTA), Metra, and Pace suburban rail. The RTA is also responsible for the development of a new public transit system in the six-county region.

“The future is purchased
by the present.”
Samuel Johnson
(1709-1784)

From the time the first settlers arrived in the region, the ability to move goods and people has made Northeastern Illinois a crossroads for our nation’s commerce and development for nearly two centuries.

The six counties served by the RTA, CTA, Metra and Pace are expected to add another 1.9 million people by 2030. Our suburbs are no longer simply bedroom and farming communities. Many have become commercial and destination centers on their own, and the need to maintain and improve our region’s transportation systems is growing along with the region.

The needs of these newer travel markets have been a major focus of the RTA and its Service Boards’ efforts in recent years. Thanks to the groundwork laid by the RTA Board and its former chairman Thomas J. McCracken Jr., we are improving existing services, reaching out to areas never before served by public transit and creating opportunities for sensible growth and multimodal transportation solutions.

Our goal is to connect people and places. Through corridor studies and the examination of new technologies, the RTA is working to ensure that our future transit system develops in coordination with the region we serve. The plans and the projects featured in this annual report illustrate how the RTA, in partnership with other transportation agencies and communities, is creating opportunity now and for the future. Through planning, northeastern Illinois and the RTA, the CTA, Metra and Pace are working together so that public transit system increases mobility and accommodates growth while maintaining financial stability.

Sincerely,

Jim Reilly, Chairman

Cook

Creating Connections

John H. Stroger, Jr.
President
Cook County Board of
Commissioners

Cook County Characteristics

From the time when Jean Baptiste Point du Sable established the first permanent settlement on the north bank of the Chicago River, Cook County has been the region's economic and cultural hub. In the mid-1800s, waterways and railroads established Chicago as a major connecting point for the flow of

trade from west to east and attracted manufacturers seeking the raw materials and distribution systems for their products. Cook County and Chicago still maintain this central role as home to nearly 5.4 million people and more than 2.5 million jobs.

Juan Chavez's mural at the Damen stop captures the spirit of the communities along the Cermak Branch.

To improve the use of its stations, the RTA and the Village of Brookfield have created transit-oriented development plans.

At left: The CTA rebuilt eight stations as part of the reconstruction of the Cermak (Douglas) Branch of the Blue Line.

Customers at the Cermak stop on the newly renovated Blue Line now have faster, more efficient connections to the city and suburbs. The four-year, \$483 million rehabilitation of the Cermak Branch rebuilt eight stations and decreased travel times to the Loop by 20 minutes.

Commuting Trends

As suburban communities attract more and more of the region's employers, the number of workers commuting to job sites outside Chicago's Central Business District (CBD) continues to grow. Changing commuting patterns are challenging the region to develop more reverse and suburb-to-suburb commuting options. The RTA, the CTA, Metra and Pace are working to meet this challenge by upgrading and reconfiguring existing services, exploring new technologies to improve service, and planning new services that better connect workers with employment centers.

Future Projects and Plans

In 2004, the CTA completed the majority of the work on the rehabilitation of the Cermak Branch of the Blue Line, vastly improving travel times from the city's southwest side. The CTA also opened a new park-n-ride lot at the Garfield Station on its Green Line, while Pace worked with communities in the northern part of Cook County to restructure services to increase suburban transit connections.

Providing better connections between the city and the entire region is the focus of new services proposed by the CTA, Metra and Pace. One proposal the CTA is pursuing is the Circle Line, a plan to link all existing CTA and Metra rail lines with a new line encircling the city's central area. Metra is also studying the feasibility of a new rail service for southeast Cook and northeast Will counties. The RTA is working with the South Suburban Mayors and Managers Association to develop transit-supportive land-use policies and local financing mechanisms for this proposed service.

DuPage

Creating Choices

Robert Schillerstrom
Chairman
DuPage County Board

DuPage County Characteristics

Twenty miles west of downtown Chicago, DuPage County is the second most populous county in the state of Illinois with nearly one million residents and 600,000 jobs. Since 1970, DuPage County has accounted for more than 46 percent of all new jobs in the region. DuPage's business community is a diverse

mix of manufacturing, warehousing and distribution, health care and high-technology industries from McDonald's Corporation to Tellabs. Its workforce is well educated with more than 40 percent having earned a college degree.

More than 170,000 cars a day travel between the I-88 and I-355 tollway interchanges in central DuPage County.

Firms such as Lucent Technologies and Bell Laboratories are located along I-88.

At left: Three Metra lines run through the Cook-DuPage Corridor where the RTA is studying ways to address congestion and improve mobility.

The Cook-DuPage Corridor study is an ongoing effort to give commuters in DuPage County more travel options. Bisecting the county, Interstate 88 is now home to a variety of high-tech research and development firms as well as manufacturing, warehousing and distribution facilities, creating the need to reduce congestion in the area through increased travel options.

Commuting Trends

According to the county's Department of Economic Development and Planning, more than 87 percent of the county's workforce currently drives to work while 6.5 percent uses public transit. To reduce congestion and maintain its economic vitality, the county has been working with the RTA, its communities and the region's transit providers to increase the number of transportation options for its residents and workers.

Future Projects and Plans

With the support of the RTA's Regional Technical Assistance Program (RTAP), a comprehensive transit plan for DuPage County was completed in 2002 outlining a number of potential solutions to better connect public transit to the county's residents and workers. One proposal, included in the 2030 Regional Transportation Plan, is the "J Route," a bus rapid transit service linking O'Hare Airport, Schaumburg, Oak Brook, Naperville and Aurora.

In partnership with the Illinois Department of Transportation, the RTA is also managing the Cook-DuPage Corridor Study, a joint effort by the region's transportation planning agencies and more than 50 communities to examine the travel market and develop a spectrum of transportation solutions for the corridor.

Additionally, in 2004, DuPage County and Pace unveiled Ride DuPage, consolidating dispatching and scheduling for more than 40 specialized transportation services. Ride DuPage provides a one-stop service for persons with disabilities, seniors and low-income families.

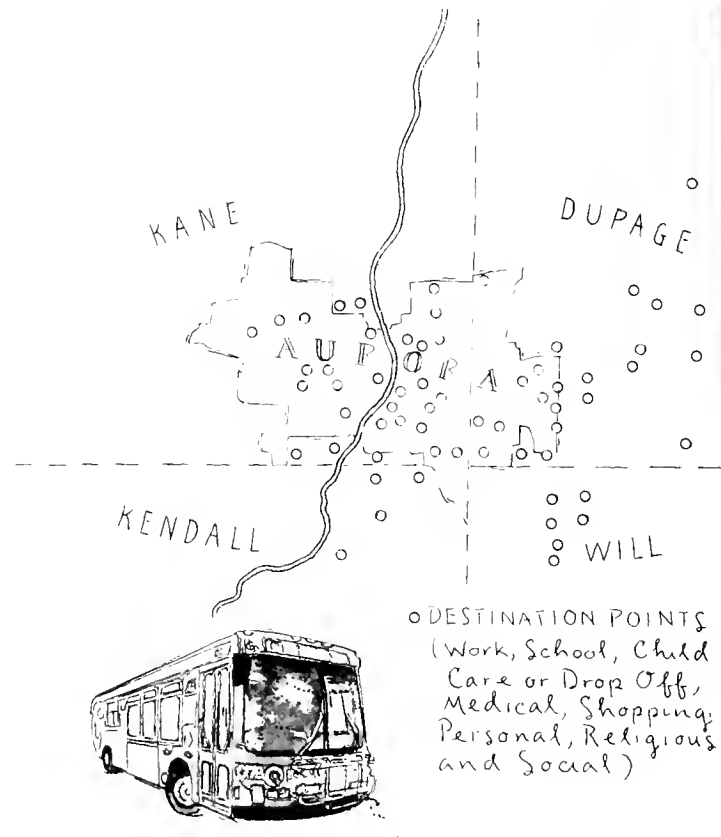

Kane

Creating Alternatives

Karen McConnaughey
Chairman
Kane County Board

Kane County Characteristics

Kane is one of the fastest-growing counties in the nation, adding an estimated 50,000 new residents between 2000 and 2003 according to the U.S. Census Bureau. County leaders are working to maintain the county's open spaces despite development pressures. With the Fox River bisecting the eastern portion of the county and railroads

connecting it to points east and west, transportation has played a significant role in the growth and development of Kane. The first rail line in northern Illinois crossed Elgin and Geneva. Aurora was also a major railroad center. Today, Metra service to Chicago on the Burlington Northern and UP-West lines is one of the factors attracting new residents.

Pace and the Village of Oswego established a park-n-ride facility in 2004 to connect commuters with trains in Aurora.

Aurora is a central transfer point for bus and train riders in Kane County.

Passengers board a midday Chicago-bound Metra train at the Aurora Transportation Center. Pace's Fox Valley/Southwest DuPage Initiative will result in restructured transit services that will be more efficient and effective, providing better transit linkages for commuters in Kane, DuPage and Will counties.

Commuting Trends

Nearly 80 percent of the county's resident commuters drive alone, according to the 2000 Census, while less than 3 percent of the county's commuters use public transit. Most transit in the county is geared toward those commuting to Chicago. The majority of Pace's current routes in Kane County focus on rush-hour connections to rail stations. In addition, most of the county's areas of new development are beyond the reach of the current bus and rail system. One effort to address this service gap has extended outside the region's traditional borders. In June 2004, Pace partnered with the village of Oswego in Kendall County to create a park-n-ride facility and shuttle riders to the Aurora Metra station.

Future Projects and Plans

Beginning in June 2004, Pace launched the Fox Valley Southwest DuPage Initiative to evaluate current service and identify specific market demands. Through an extensive public outreach program, Pace ensured that the study's subsequent recommendations would be community-driven. Implementation of recommendations is expected to begin in mid-2005.

Construction continues on the extension of the Union Pacific West service to Elburn in the far western portion of the county. The extension is expected to begin service in 2005 with construction completed in late 2006 and will include stations in Elburn and LaFox.

As part of its Regional Technical Assistance Program, the RTA worked with the County on a transit opportunity assessment to evaluate existing and potential transit markets. The study identified two corridors (Randall/Orchard Road and Kirk Road) as candidates for transit services and transit-supportive land-use planning.

Lake

Creating Improvement

Suzi Schmidt
Chairman
Lake County Board

Lake County Characteristics

Lake County lives up to its name, from the shores of Lake Michigan that form its eastern border to the Chain O'Lakes area in the west. Early settlers were attracted to the county for both its rural and industrial potential. The county seat, Waukegan, developed as a port and manufacturing center shipping produce and grain from Lake and McHenry County farms by

ship and rail. Today, Lake County is home to some of the region's top employers (Abbott Labs, Baxter, U.S. Navy) and some of its top attractions (Great America, Gurnee Mills, Illinois Beach State Park). Lake County offers its more than 644,000 residents variety from highly developed urban centers to wealthy suburbs to rural communities.

Pace is studying the potential for new employer-based shuttle services as part of the NCS expansion.

A newly planted cornfield borders the site of the future Grayslake Metra station.

At left: Grayslake is one of five new stations to be constructed as part of the expansion of Metra's North Central Service.

A Chicagoland Paving truck hauls dirt as the company prepares the site of the future parking lot for the Grayslake Metra station on the North Central Service (NCS). The Grayslake station is being added to the NCS as part of a \$225.5 million capacity expansion that will double service on the line.

Commuting Trends

Sixty-five percent of Lake County's workforce lives in the county while 20 percent of its workers commutes from Cook County. The next highest numbers commute to the county's job sites from McHenry County and communities just north of the Wisconsin border. According to the 2000 census, nearly 90 percent of the county's resident workforce drives to work.

Future Projects and Plans

Maintaining and improving the county's roads and public transit options is essential for Lake County's continued viability and growth. With Metra's double-tracking of the North Central Service (NCS) scheduled for completion in late 2005, Pace, Metra, the Transportation Management Association (TMA) of Lake Cook, the RTA and IDOT are studying the feasibility of creating new employer-based shuttle routes from some NCS stations in Lake County. The TMA of Lake Cook has already worked with Pace in developing a highly effective shuttle bus service in the Lake-Cook Road corridor and hopes to duplicate this success along the NCS.

In 2002, the County, working with the RTA, completed the 2020 Transportation Priority Plan. The plan identified potential transit service improvements including extension and capacity expansion of Metra's Milwaukee District North Line. Improvements could include additional track and signal work to minimize freight interference and the creation of a new branch line from Rondout to Wadsworth. Additionally, the study identified potential bus corridors, multimodal hubs and new service along a portion of Metra's proposed STAR Line.

McHenry

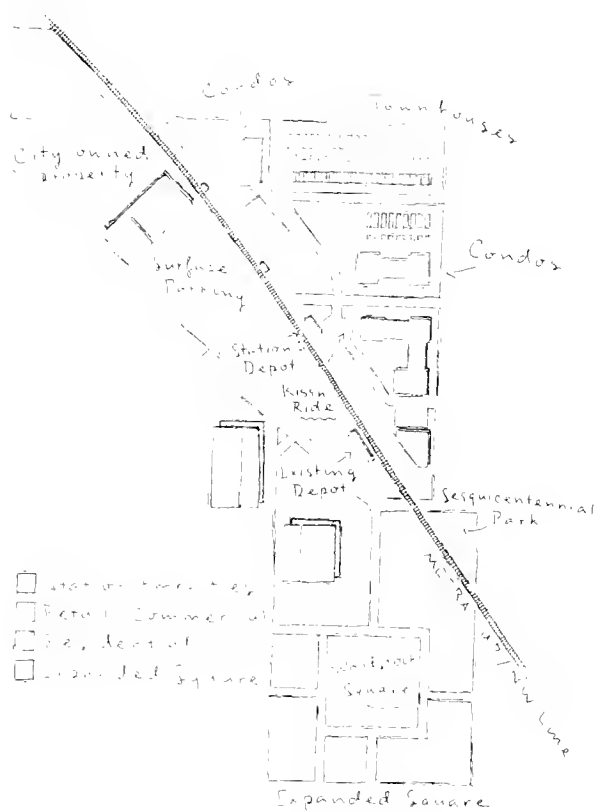

Creating Community

Ken Koehler
Chairman
McHenry County Board

McHenry County Characteristics

Formed in 1836, McHenry County has a rural character, reasonable housing prices and good schools that have made it an attractive place to live so much so that the population has nearly doubled

in the past two decades. Population projections for the year 2030 show that the county can expect this trend to continue and 160,000 more people to call it home

A billboard shows plans to transform a former manufacturing site into a transit oriented housing development.

Redevelopment will better link Woodstock's historic town square to the train station.

At left: The Woodstock Transit-Oriented Development Study focused on integrating mobility improvements with the redevelopment of the vacant land near the Metra station.

Street signs are in place at a new townhome development adjacent to the Woodstock Metra Station. The RTA has long sponsored transit-oriented development studies to help communities capitalize on existing and future transit assets.

Commuting Trends

With nearly 62,000 residents commuting to jobs outside the county and fewer than 7 percent of this group using public transit, McHenry residents have one of the region's longest average commute times.

Limited transit options currently exist in the county, primarily Metra's UP-Northwest (UP-NW) Line with stations in Crystal Lake, McHenry, Woodstock and Harvard. Pace provides some bus and paratransit service. A survey conducted as part of the McHenry County Transit Plan shows that most commuters are driving to jobs in Lake, northwest Cook and Kane counties and that these commuters are the most interested in public transit options. However, despite the need to address mobility issues, many areas of the county do not yet have the population density to support traditional transit services.

Future Projects and Plans

In February 2004, McHenry County, with the assistance of the RTA and other transportation agencies, began work on the development of a county transit plan. The primary goals of this effort are to assess existing conditions, focus on the mobility needs of residents and employees and identify opportunities for transit. The 2030 Regional Transportation Plan also includes an extension of a branch of the UP-NW Line from McHenry to Richmond.

The Woodstock Transit-Oriented Development Study, a project partially funded by the RTA, focused on the creation of a new station area plan for the Woodstock Metra station, including a plan for the redevelopment of a vacant lot north of the station. A townhome development is now planned for the site.

Will

Creating the Future

Lawrence M. Walsh
Will County Executive

Will County Characteristics

The area that is now Will County was a favorite hunting ground for the Kaskaskia tribe of the Illini Nation. It had an abundant supply of water and timber, and travel was facilitated by the old Sauk Trail and by the Des Plaines, DuPage and Kankakee rivers. Today, Will County's affordable housing has made

it one of the fastest-growing counties in the nation, gaining an additional 80,000 residents between 2000 and 2003 according to the U.S. Census. In 2004, Joliet was the 14th fastest-growing city in the nation. The county's growth trends continue to favor residential over commercial development.

Farm houses and outbuildings are the only current neighbors to Metra's New Lenox Station.

A new rail crossing awaits the start of commuter service along Metra's Southwest extension.

At left: "Transit Village" concept proposed as part of the RTA's New Lenox Station Area Plan.

The site of the future New Lenox Station is currently surrounded by farm fields. However, as part of the planning for Metra's extension of its Southwest Service to Manhattan, Illinois, New Lenox worked with the RTA to create a concept plan for a mixed-use development surrounding the train station, enabling the village to better control future development.

Commuting Trends

Nearly half of Will County's workforce travels to jobs in Cook and DuPage counties, and the majority does so by car. Only 4 percent of the county's commuters uses public transit. While three rail lines currently serve the county, two of the lines (Heritage Corridor and Rock Island) end in Joliet, and the third line (Metra Electric) has one station in Will County. Bus service is concentrated in the Joliet area with some service between Joliet and Naperville.

Future Projects and Plans

Will County's limited rail options are growing. Metra's expansion of the Southwest Service to Manhattan is well under way and slated for completion in December 2006. New stations at Laraway Road in New Lenox and Manhattan will provide more convenient transit access.

The County's 2020 Transportation Plan, developed with the RTA's assistance, recognizes the need to address the county's growth by introducing a more multimodal approach to transportation within the county, such as dial-a-ride and fixed-route bus services. Metra's proposed STAR Line outercircumferential service and proposed SouthEast Service, although currently only part of the region's long-range plan, will eventually provide residents with additional links to Chicago, employment centers in DuPage County and ultimately, the entire region.

I have the pleasure to submit to you the Combining Financial Statements Report for the Regional Transportation Authority, the Chicago Transit Authority, the Commuter Rail Division and the Suburban Bus Division for the year ending December 31, 2004. This Report fulfills the requirements of section 4.05 of the RTA Act.

This Report represents the operations of our transit system in the aggregate and not as individual components. It shows the magnitude of the resources on hand and in use for public transportation in the northeast Illinois region.

The RTA's independent accountants have compiled the Combining Financial Statements Report. They have not subjected these statements to audit. The audited financial statement of each individual organization is available upon request.

As always, the RTA staff acknowledges the commitment by the RTA Board and the Service Boards to fiscal responsibility, to ensure financially sound public transportation in northeastern Illinois.

Joseph G. Costello
Chief Financial Officer
Regional Transportation Authority
June 14, 2005

Board of Directors
Regional Transportation Authority
175 West Jackson Boulevard, Suite 550
Chicago, Illinois 60604

We have compiled the accompanying combining financial statements of the Regional Transportation Authority and Service Boards as of December 31, 2004, and for the year then ended, and the supplementary and statistical information listed in the foregoing table of contents, in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants. The supplementary and statistical information is presented only for purposes of additional analysis and is not a required part of the basic financial statements.

A compilation is limited to presenting, in the form of financial statements and supplementary and statistical information, information that is the representation of management. We have not audited or reviewed the accompanying combining statements and, accordingly, we do not express an opinion or any other form of assurance on them.

Basis of Accounting

The accompanying combining financial statements are presented as required by the Regional Transportation Authority ("RTA") Act ("Act") and are not intended to be presented in accordance with accounting principles generally accepted in the United States.

Intergovernmental receivables, payables, revenues, expenses, and expenditures have been eliminated in the Combining Adjustments columns; however, there are some differences in these amounts reported in the stand-alone financial statements of the RTA and the Service Boards. These valid differences relate primarily to differences in timing in the recording of certain transactions. For purposes of these combining financial statements, such differences are recorded as combining adjustments to net assets.

The columns presenting the combined balances for the RTA and Service Boards are statutorily required and do not present financial position, results of operations, or cash flows in conformity with accounting principles generally accepted in the United States.

Organizational Structure

The RTA was established in 1974 upon the approval of a referendum in its six-county Northeastern Illinois Region ("Region"). The operating responsibilities of the RTA are set forth in the Act. The RTA is a unit of local government, body politic, political subdivision, and municipal corporation of the State of Illinois. As initially established, the RTA was an operating entity responsible for providing day-to-day bus and rail transportation services. However, in 1983, the Illinois General Assembly reorganized the structure and funding of the RTA from an operating entity to a planning, funding, and oversight entity. The reorganization placed all operating responsibilities in the Chicago Transit Authority ("CTA") and two operating divisions of the RTA: the Commuter Rail Division ("Metra") and the Suburban Bus Division ("Pace"), each having its own independent board. These divisions conduct operations and deal with subsidized carriers. These three entities are defined in the Act as the "Service Boards."

The Act sets forth detailed provisions for the allocation of receipts by the RTA to the various Service Boards, and imposes a requirement that the RTA system as a whole achieves annually a "system-generated revenues recovery ratio" (i.e., aggregate income for transportation services provided) of at least 50% of the cost of transportation services. The Service Boards achieve their required recovery ratios by establishing fares and related revenue to cover the required proportion of their proposed expenses. The RTA has the responsibility to monitor the budgets and financial performance of the Service Boards.

The CTA was formed in 1945 pursuant to the Metropolitan Transportation Authority Act passed by the Illinois Legislature. The CTA was established as an independent governmental agency (an Illinois municipal corporation) "separate and apart from all other government agencies" to consolidate Chicago's public and private mass transit carriers. The City Council of the City of Chicago has granted the CTA the exclusive right to operate a passenger transportation system within the City of Chicago.

Metra

The Northeast Illinois Regional Commuter Railroad Corporation (NIRCRC), a public corporation, was established in 1980 to serve as the RTA's commuter rail service. The RTA Act, as amended effective November 9, 1983, established the Commuter Rail Division (CRD) to operate commuter rail transportation services. Both the NIRCRC and the CRD act under the registered service mark known as "Metra."

Metra has the responsibility for policy making with respect to actual day-to-day operations, capital investments, finances, fare levels, and service and facilities planning for its operations. Metra has responsibility for the administration of all commuter rail activities in the metropolitan Chicago area, including deficit funding, capital grant application, and administration activities. Metra is directly responsible for the operation and management of the Rock Island, Milwaukee Road, Metra Electric, Heritage Corridor, North Central Service, and Metra South West Service commuter lines.

Metra also provides commuter rail service under purchase of service agreements (PSA) with Union Pacific Railroad, Burlington Northern Santa Fe Railway Company, and Northern Indiana Commuter Transportation District. Under these agreements, Metra funds the commuter-related operating deficits (as defined), or is entitled to receive the commuter-related operating surpluses (as defined) of these carriers. In addition, Metra provides certain direct expenses such as fuel and insurance coverage considered to be "in-kind assistance." The title to the roadway and structure assets of the PSA carriers, other than capital improvements funded by federal and state agencies, the RTA, and Metra, is vested with the carriers. Accordingly, such assets are not reflected in these financial statements.

Pace

The RTA Act, as amended effective November 9, 1983, established the Suburban Bus Division (Pace) to operate suburban bus service within suburban Cook County and the five collar counties of DuPage, Kane, Lake, McHenry, and Will. The independent operations of Pace commenced on July 1, 1984.

Pace determines the level, nature, and kind of public transportation services that should be provided in the suburban region. Pace operates suburban bus services using stock, structures, and equipment purchased through capital grants funded by federal and state agencies and the RTA.

Combined Entities

The RTA, CTA, Metra, and Pace (the "Combined Entities") all report on a calendar-year basis. All statements enclosed herewith are based on each entity's December 31, 2004 year-end.

Reporting Entity

The RTA and each of the Service Boards have adopted the provisions of the Governmental Accounting Standards Board ("GASB").

In the judgment of the management of each of the entities and their analysis and application of GASB criteria, while the RTA does exercise some fiscal oversight, the Service Boards are not part of the RTA reporting entity for the purpose of preparing a comprehensive annual financial report in accordance with governmental accounting and financial reporting standards in the United States.

In arriving at this conclusion, the following factors were considered:

- The Service Boards maintain separate management, exercise control over all operations (including the passenger fare structure), and are accountable for fiscal matters including; ownership of assets, relations with Federal and State transportation funding agencies that provide financial assistance in the acquisition of these assets, and the preparation of operating budgets. The Service Boards are also responsible for the purchase of services and approval of contracts relating to their operations.
- The RTA Board has control neither in the selection nor the appointment of any Service Board Director nor of any of its management. Further, directors of the Service Boards are excluded from serving on more than one entity's board of directors, including that of the RTA, except for the Chairman of the CTA Board of Directors who is also an RTA Board member.
- The Illinois statutes required the RTA Board to approve the budgets of the Service Boards if such budgets meet specified system-generated revenues recovery ratios and other requirements as defined by the Act.
- The RTA is not entitled to any Service Board surplus or responsible for any Service Board deficits.

Accordingly, financial statements for the Service Boards are not included or combined with the RTA's financial statements. They are combined, however, in these Combining Financial Statements. Section 4.05 of the RTA Act requires that the RTA prepare a report combining "the audits of the Service Boards, and reviewing the state of the Authority, the Service Boards, and the public transportation agencies."

Note 4. Summary of Significant Accounting Policies

The accounting policies of the Combined Entities conform to accounting principles generally accepted in the United States as applicable to governments. The following is a summary of the significant policies:

Fund Accounting

The RTA maintains records using a fund accounting model consisting of a General Fund, Debt Service Fund, Capital Projects Fund, Proprietary Fund, (Business-Type Activities), Agency Fund, and Pension Trust Fund. All Governmental Funds and the Agency Fund are accounted for using the modified accrual method of accounting (i.e., revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred). The Proprietary Fund and Pension Trust Fund are accounted for using the accrual method of accounting. For the purpose of these combining financial statements, all RTA funds have been combined.

The Service Boards are accounted for on a Proprietary Fund basis. Accordingly, the accrual method of accounting is utilized by the Service Boards. For purposes of these combining financial statements, the individual Service Board financial statements are combined with those of the RTA.

Cash and Cash Equivalents

All investments of the Combined Entities are recorded at fair value except short-term investments, which are reported at cost or amortized cost, which reasonably approximates fair value.

For the purposes of the combining statements of cash flows, the Combined Entities consider all investments with original maturities of three months or less to be cash equivalents. Such amounts are included in the "Cash and Cash Equivalents" line items on the accompanying balance sheet.

Fixed Assets

All fixed assets are recorded at cost. Costs funded by federal capital grants are recorded as capital items and are included in fixed assets. In calculating depreciation, the Combined Entities use the straight-line method. The estimated useful lives vary depending on the type of fixed asset. These useful lives range from more than one year to 40 years.

Materials and Supplies

Each Service Board records its inventory at the lower of cost or market. The CTA and Metra use the average-cost method. Pace uses the first-in, first-out method to determine cost.

Compensated Absences

All four entities have recorded liabilities for vested vacation time in the year the time was earned. The entities account for compensated absences under GASB Statement No. 16, *Accounting for Compensated Absences*, whereby the applicable salary-related employer obligations are accrued in addition to the compensated absences liability.

Revenues

The Combined Entities have five principal sources of revenue and other financial sources: (1) farebox revenue; (2) retailers' occupation taxes, service occupation taxes, and use taxes (collectively, RTA Sales Taxes); (3) funds appropriated to the RTA by statute through the state's Public Transportation Fund ("PTF") established under the RTA Act; (4) state or federal grants, or any other such funds, which the RTA is authorized to apply for and receive under the RTA Act; and (5) investment income and other miscellaneous revenue.

Farebox Revenue

A major source of revenue to the Service Boards is fares collected from riders. Each Service Board has its own fare structure and method for collection of fares. Farebox revenue is recognized when fares paid are initially valid for transportation services.

Sales Tax

Sections 4.03 and 4.03.1 of the Regional Transportation Act, 70 ILCS 361S/4.03, authorizes the RTA to impose a series of taxes within the six-county metropolitan region by a vote of nine of its directors: a sales tax, a car rental tax, a motor fuel tax, an off-street parking tax, and a replacement vehicle tax.

The Act authorizes the RTA to impose a retailers' occupation tax ("ROT"), a service occupation tax ("SOT"), and a use tax ("UT"). The RTA imposed this tax at the maximum rate in 1979. All of the RTA sales taxes are collected by the Illinois Department of Revenue under procedures that are largely identical to the corresponding state sales taxes.

The ROT is imposed on the gross receipts from the sale of tangible personal property at a rate of 75% in Cook County and 25% in the collar counties. Except for the tax on food and drugs, the

RTA tax base is identical to the State retailers' occupation tax base. Consequently, when the state base is expanded or contracted by taxing or exempting receipts from specific transactions, e.g., the sale of computer software or rolling stock, the RTA tax base likewise expands or contracts. However, when the legislature exempted the sale of food and drugs from the state tax, the exemption was not extended to the RTA and other local government taxes. As a result the RTA tax on food and drugs is imposed at a rate of 1% throughout the six-county area.

The SOT is imposed on the gross receipts from the sale of tangible personal property as an incident to the sale of a service. The tax rate is identical to the ROT. The tax base is identical to the State service occupation tax base.

The UT is imposed on persons living in the six-county area for the privilege of using a vehicle purchased outside the six-county area that must be registered with the State. Unlike the State use tax, the RTA UT is limited to registered property, largely automobiles. The tax is imposed on the selling price of the property at the same rates as the ROT.

The RTA Sales Tax is collected by the Illinois Department of Revenue (the "Department of Revenue"), and paid to the Treasurer of the State to be held in trust for the RTA outside the State Treasury. Proceeds from the RTA Sales Tax are payable monthly directly to the RTA, without appropriation, by the State Treasurer on the order of the State Comptroller.

Also, proceeds from certain sales taxes imposed by the State are allocated to the RTA as part of the restructuring of the State and local sales taxes in Illinois. Until January 1, 1990, the State General Sales Tax, State Use Tax, and State Service Occupation Tax portions of the RTA Sales Tax were imposed at a rate of 1% in Cook County. Effective January 1, 1990, as a result of legislation (the "Sales Tax Reform Act") aimed at simplifying the base and rate structure of taxes imposed by the State and its local governments, including the RTA, the State General Sales Tax, State Use Tax, State Service Occupation Tax, and State Service Use Tax were increased from 5% to 6.25% and any corresponding portions of the RTA Sales Tax in Cook County were reduced from 1% to 0.75%. In order to avoid a revenue loss to the RTA because of the reduction in this portion of the RTA Sales Tax, the Sales Tax Reform Act directed that portions of the receipts from the State General Sales Tax, State Use Tax, State Service Occupation Tax, and State Service Use Tax be paid to the RTA annually.

Specifically, 4% of the net monthly revenue from the 6.25% State General Sales Tax and State Service Occupation Tax and 4% of the net monthly revenue from the State Use Tax on personal property purchased at retail outside the State but registered or titled with a State agency within the State (i.e., 0.25% of total) is transferred into the County and Mass Transit District Fund in the State Treasury (the "CMTD Fund"). The amount in the CMTD Fund attributable to taxable sales occurring in Cook County or to property registered or titled in Cook County is then transferred into the RTA Occupation and Use Tax Replacement Fund in the State Treasury (the Replacement Fund). In addition, (i) the net monthly revenue from the State Use Tax and State Service Use Tax portions of the 1% State Food and Drug Tax and (ii) 20% of the net monthly revenue of the 6.25% State Use Tax and State Service Use Tax (i.e., 1.25% of total), other than revenues of such taxes attributable to personal property purchased at retail outside the State but registered or titled with a State agency within the State,

are deposited in the State and Local Sales Tax Reform Fund (the Reform Fund). Of the money paid into the Reform Fund, 10% is transferred into the Replacement Fund.

The Act provides that the RTA withhold 15% of the tax revenues generated and that these revenues are deposited into the RTA's General Fund. The RTA is required to pass on to the Service Boards, pursuant to statutory formula, an amount equal to the remainder of such tax revenues. The remaining 85% of sales tax is allocated to the Service Boards as follows:

Service Board	Collected Within Chicago	Collected Within Cook County Outside Chicago	Collected in DuPage, Kane, Lake, McHenry and Will Counties
CTA	100%	30%	
Metra		55	70%
Pace		15	30

The RTA recognizes as a receivable and revenue in the General Fund only the 15% of the total sales taxes collected to which it is entitled by the amended Act. The remaining portion of the sales tax is recorded in the Agency Fund. The criteria applied for recognition of the receivable and related revenue are that the amounts are "measurable and available" for the RTA to meet its current obligations.

Public Transportation Fund

In accordance with the Act, the State Treasurer is authorized and required to transfer from the State's General Revenue Fund to a special fund in the State Treasury designated the "Public Transportation Fund," an amount equal to 25% of net revenues realized from sales taxes (or, as the case may be, gasoline or parking taxes). These amounts may be paid to the RTA only upon State appropriation. The State has approved an appropriation from the PTF through its 2005 fiscal year, which will end on June 30, 2005.

None of the revenues from the PTF are payable to the RTA unless and until the RTA certifies to the Governor, State Comptroller, and Mayor of the City of Chicago that it has adopted a budget and financial plan as called for by the Act. This certification has been submitted.

The amounts allocable to each of the Service Boards from funding received by the RTA from the State's PTF are allocated at the discretion of the RTA Board in connection with the review and approval of the annual and revised budgets of each Service Board. The allocable amounts of such funds are payable as soon as may be practicable upon their receipt, provided that the RTA has adopted a budget pursuant to Section 4.01 of the Act, and the Service Board that is to receive such funds is in compliance with the budget requirement imposed upon the Service Board pursuant to Section 4.11 of the Act.

Reduced Fare Reimbursement

In the State's fiscal year 2004, which ends June 30, 2004, the Illinois General Assembly appropriated funds for a program under which the Illinois Department of Transportation ("IDOT") is authorized to provide to the RTA a reduced fare reimbursement grant for the purpose of reimbursing the Service Boards for a portion of actual revenue losses attributable to reduced fares for students, people with disabilities, and the elderly. For the State fiscal years ended June 30, 2004 and June 30, 2005, the grants were in the amount of \$39 million and \$40 million, respectively. This

revenue is recognized on the modified accrual basis when the amount is requested from IDOT.

Additional State Assistance/Additional Financial Assistance

The State has authorized Additional State Assistance ("ASA"), which is supplemental financing for the RTA's Strategic Capital Improvement Program ("SCIP") bonds. The ASA available to the RTA during the State's July through June fiscal year is limited to the lesser of (i) the actual debt service payable during such year on any outstanding SCIP bonds plus any debt service savings from the issuance of refunding or advance refunding SCIP bonds, less interest earned on the remaining bond proceeds, or (ii) \$55 million per year. The RTA recognized \$39 million of ASA in 2004.

Beginning with the State's fiscal year 2001, the State has also authorized Additional Financial Assistance ("AFA") to pay for debt service requirements for SCIP bonds authorized under the Illinois FIRST Program. The amount available to the RTA during the State's July through June fiscal year is limited to the lesser of (i) the actual debt service payable during such year on any outstanding SCIP bonds less interest earned on those bond proceeds, or (ii) \$73 million and \$93 million in the State's fiscal year 2004 and 2005, respectively. The RTA recognized \$48 million of AFA in 2004.

In accordance with the Act, earnings on certain investments in the Capital Projects Fund are credited to the Debt Service Fund. This is done to compensate for prior State fiscal year earnings reducing the actual ASA and AFA grant amounts.

Management's Use of Estimates

The preparation of financial statements in conformity with the Act requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 5. Budget and Budgetary Accounting

Section 4.01(a) of the Act requires the RTA to prepare and adopt a comprehensive annual budget and program presenting the RTA's planned operations and capital expenditures for the forthcoming year. The Service Boards' proposed budgets are based on the RTA's estimate of funds that will be available to the Service Boards by or through the RTA's own budget. This budget is comprehensive and includes the activity in the general fund and sales tax agency fund.

The annual budget and related appropriations are prepared using the modified accrual basis of accounting in conformity with accounting principles generally accepted in the United States except for RTA capital expenditures and capital grants to Service Boards. The RTA capital expenditures and capital grants to Service Boards are budgeted on a project basis, which normally exceeds one year, and debt service payments, which are budgeted as transfers from the general fund. Budgets for RTA capital expenditures and capital grants to the Service Boards that extend beyond one year are presented in the first year of the grants and represent the total amounts awarded. In addition, for the sales tax agency fund, additions and deletions are treated as revenues and expenditures. All appropriations lapse at year-end. There was no budget amendment to the 2004 budget. Although appropriations are adopted for individual line items, the legal level of control (i.e., the level at

which appropriation transfers or expenditures in excess of appropriated amounts require RTA Board approval) is restricted to total appropriations/expenditures and total administration appropriations/expenditures. Management has the authority to exceed any line item appropriation without Board approval, provided it does not exceed the total appropriations/expenditures and the total administration appropriations/expenditures. It is the policy of the RTA to fund the budgets of the Service Boards up to the amount appropriated in the annual Budget Ordinance. The Service Boards shall maintain all financial records and shall prepare all financial statements and reports, including quarterly and annual reports required under the Act, in accordance with the following provisions:

- The first source of funds to be credited against the budgeted funding amount is from Federal Transit Administration ("FTA") operating assistance grants;
- The second source of funds to be credited against the budgeted funding amount is from 85% sales tax receipts;
- The third source of funds to be credited against the budgeted funding amount is from PTF receipts; and
- The fourth source of funds credited against the budgeted funding amount is from RTA 15% sales tax receipts and other discretionary receipts.

The reimbursement of the Service Boards' capital expenditures and the payment of PTF funds, 15% funds, and other discretionary funds of the RTA shall be made under the terms and conditions of grant agreements governing such expenditures.

Note 6. Leases

The RTA and CTA hold operating leases that are primarily for rent expense on the facilities they occupy. Metra has several operating leases, primarily for the use of passenger terminals. Pace has multi-year leases for vehicles and bus tires.

Metra

On September 18, 1998, Metra entered into a transaction to lease 174 railcars to three equity investors ("headlease") and simultaneously subleased the railcars back ("sublease"). Under these agreements, Metra maintains the right to use the railcars and is also responsible for their continued maintenance and insurance. Metra's sublease arrangements have been recorded as long-term obligations for accounting purposes. At closing, the railcars had a fair market value of approximately \$296.9 million and a book value of \$262.9 million. As part of the headlease agreements, Metra received prepayments equivalent to the net present value of the headlease obligations totaling approximately \$274 million. Metra transferred approximately \$177.4 million and \$52.9 million of the prepayment proceeds to third parties, in accordance with the terms of debt and equity payment undertaking agreements, respectively. These agreements constitute commitments by the debt and equity payment undertakers to pay Metra's sublease and buy-out options, under the terms of the subleases. The debt payment undertaker and equity payment undertaker are finance companies. The debt payment undertaker is non-rated, and the equity payment undertaker has AAA and Aaa bond ratings from Standard & Poor's and Moody's, respectively. Both finance companies' performance under the agreement is guaranteed by their parent company, which carries the same bond ratings. In connection with the transaction, Metra recognized

\$43.7 million as leasehold revenue in 1998. The net present value of the future payments due under the subleases has been recorded as a liability on the accompanying balance sheet. Since the debt and equity payment undertaking agreements have been structured to meet all future obligations under the subleases, the related asset balances have been recorded to equal the sublease liabilities on the accompanying balance sheet.

The following table sets forth the aggregate amounts due under the sublease agreements:

Future minimum payments due

Year	Payment
2005	\$ 17,193,268
2006	17,193,268
2007	17,193,268
2008	25,239,685
2009 - 2013	112,271,091
Thereafter	359,120,175
Total future minimum payments	548,210,755
Less imputed interest	(266,858,394)
Present value of minimum lease payments	\$ 281,352,361

The present value of minimum lease payments of the Metra lease is \$281.3 million, which is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

During 2003, Pace entered into a lease and leaseback agreement with a third party pertaining to certain buses (lot 1, 2, and 3,) with a book value of \$45.5 million as of December 31, 2004. Under the bus lease agreements, which provide certain cash and tax benefits to the third party, Pace entered into a long-term lease for applicable assets with a trust, established by the equity investor, in which the trust concurrently leased the respective assets back to Pace under a sublease. Also, in 2003, Pace entered into a lease and leaseback agreement with a third party pertaining to certain buses (lot 4) with a book value of \$24.6 million as of December 31, 2004. Under the bus lease agreements, which provide certain cash and tax benefits to the third party, Pace entered into a long-term lease for applicable assets with a trust, established by the equity investor, in which the trust concurrently leased the respective assets back to Pace under a sublease.

The following table sets forth the aggregate amounts due under the sublease agreements:

Future minimum payments due

Year	Payment
2005	\$ 12,444,395
2006	4,072,866
2007	25,876,035
2008	
2009	
Thereafter	125,838,453
Total future minimum payments	168,231,749
Less interest	(64,760,852)
Present value of minimum lease payments	\$ 103,470,897

The present value of the future payments including the purchase option to be made by Pace under these leases is approximately \$69.9 million and \$33.6 million, respectively, and

is reflected in the accompanying December 31, 2004 statement of net assets as the total of the current and long-term portions of the capital lease obligation.

In 2003, the CTA issued Public Building Commission of Chicago ("PBC") Building Revenue Bonds in the amount of \$119,020,000. The bonds were issued to pay costs associated with the acquisition of real property and construction of a building and facilities, including certain furniture, fixtures, and equipment that are owned by the Commission and leased to the CTA, for use as its headquarters. The bonds are payable from and secured by the lease entered into between the Commission and the CTA in March 2003 and is considered a general obligation of the CTA payable from any lawfully available funds.

The following table sets forth the aggregate amounts due under the capital lease agreement:

Future minimum payments due

Year	Payment
2005	\$ 9,945,000
2006	9,847,000
2007	9,891,000
2008	9,922,000
2009	9,713,000
Thereafter	137,911,000
Total future minimum payments	\$ 187,229,000

The present value of the future payments to be made by the CTA under the lease of approximately \$119 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

In 2003, the CTA entered into a lease/leaseback agreement with a third party pertaining to certain buses, with a book value of \$14.6 million as of December 31, 2004. Under the bus lease agreement, which provides certain cash and tax benefits to the third party, the CTA entered into a long-term lease for applicable assets with a trust established by the equity investor, in which the trust concurrently leased the respective assets back to the CTA under a sublease.

Under the sublease, the CTA is required to make the following payments:

Future minimum payments due

Year	Payment
2005	\$ 1,294,000
2006	1,362,000
2007	9,373,000
2008	
2009	
Thereafter	27,104,000
Total future minimum payments	\$ 39,133,000

The present value of the future payments to be made by the CTA under the lease of approximately \$24.5 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

During 2002, the CTA entered into two lease and leaseback agreements with a third party pertaining to certain buses (lot 1 and 2) with a book value of \$73.5 million as of December 31,

2004. Under the bus lease agreements, which provide certain cash and tax benefits to the third party, the CTA entered into a long-term lease for applicable assets with a trust, established by the equity investor, in which the trust concurrently leased the respective assets back to the CTA under a sublease.

Under the sublease, the CTA is required to make the following payments:

Future minimum payments due

Year	Payment
2005	\$
2006	
2007	
2008	
2009	767,000
Thereafter	146,757,000
Total future minimum payments	\$ 147,524,000

The present value of the future payments to be made by CTA under the lease of approximately \$91.7 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

During 2002, the CTA entered into a lease and leaseback agreement with a third party pertaining to certain qualified technological equipment ("QTE"), with a book value of \$39.3 million as of December 31, 2004. Under the QTE lease agreement, which provides certain cash and tax benefits to the third party, the CTA entered into a long-term lease for applicable assets with a trust, established by the equity investor, in which the trust concurrently leased the respective assets back to CTA under a sublease.

Under the sublease, the CTA is required to make the following payments:

Future minimum payments due

Year	Payment
2005	\$ 6,928,000
2006	6,928,000
2007	6,928,000
2008	103,094,000
2009	
Thereafter	159,009,000
Total future minimum payments	\$ 282,887,000

The present value of the future payments to be made by the CTA under the lease of approximately \$162.8 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

During 1998, the CTA entered into a lease/leaseback agreement ("1998 Agreement") with a third party pertaining to a rail line ("Green Line"), with a book value of \$317.9 million as of December 31, 2004. The 1998 Agreement, which provides certain cash and tax benefits to the third party, also provides for a trust established by the CTA to lease the rail line to an equity investor trust ("1998 Equity Trust"), which would then lease the facilities back to another trust established by the CTA under a separate lease ("1998 Lease").

Under the 1998 Lease, the CTA is required to make the following payments:

Future minimum payments due

Year	Payment
2005	\$ 23,864,000
2006	12,835,000
2007	24,853,000
2008	38,184,000
2009	25,884,000
Thereafter	195,920,693
Total future minimum payments	\$ 321,540,693

The present value of the future payments to be made to CTA under the lease of approximately \$276.3 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

During 1997, the CTA entered into four lease/leaseback agreements ("1997 Agreements") with a third party pertaining to certain of its facilities, having a book value of \$57.8 million as of December 31, 2004. The 1997 Agreements, which provide certain cash and tax benefits to the third party, also provide for a trust established by the CTA to lease the facilities to an equity investor trust ("Equity Trust"), which would then lease the facilities back to another trust established by the CTA under separate leases ("Leases").

During 1997, the CTA received certain funds as prepayments by the Equity Trust. The funds have been deposited in designated investment accounts sufficient to meet the payments required under the Leases, and are recorded as assets restricted for repayment of leasing commitments. The Equity Trust has a security interest in the deposits to guarantee the payments due from the CTA and may take possession of the facilities upon a default by the CTA under the Lease.

Under the Leases, the CTA is required to make the following annual rental payments:

Future minimum payments due

Year	Payment
2005	\$
2006	
2007	
2008	
2009	
Thereafter	614,300,000
Total future minimum payments	\$ 614,300,000

The present value of the future payments to be made by the CTA under the Leases (net of the payment due from the Equity Trust in 2022 and 2023) of approximately \$26.1 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

In connection with the 1997 Agreements, the CTA also received proceeds of \$11.9 million. The Federal Transit Administration ("FTA") has approved the CTA's right to the benefit received from these transactions. The CTA has elected to defer recognition of the proceeds over the remaining lease term.

During 1996, the CTA entered into similar lease/leaseback agreements ("1996 Agreements") with a third party pertaining to certain of its facilities, with a book value of \$63.2 million as of December 31, 2004. The 1996 Agreements, which provide certain cash and tax benefits to the third party, also provide for a trust

established by the CTA to lease the facilities to an equity investor trust ("1996 Equity Trust"), which would then lease the facilities back to another trust established by the CTA under a separate lease ("1996 Lease").

Under the 1996 Lease, the CTA is required to make a payment at the end of the initial term (in the year 2024) of \$653.5 million, which is fully defeased from the Equity Trust and final headlease payment. The present value of the future payments to be made by the CTA under the leases (net of the payment due from the 1996 Equity Trust in 2024) of approximately \$26.4 million is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

In connection with the 1996 Agreements, the CTA also received proceeds of \$10.9 million and agreed to make approximately \$80.0 million of improvements to one of the facilities. The FTA has approved the CTA's right to the benefit received from these transactions. The CTA has elected to defer recognition of the proceeds over the remaining lease term.

During 1995, the CTA entered into sale/leaseback agreements ("1995 Agreements") with third parties. The 1995 Agreements provided for the CTA to sell and lease back certain rail equipment totaling \$487.1 million at cost for a period of 19 years beginning on the date of the respective transaction. As of December 31, 2004, the total payments due under the 1995 Agreements are recorded as a capital lease obligation totaling \$996.9 million. The CTA has deposited funds into designated cash and investment accounts sufficient to meet all of its payment obligations throughout the terms of the leases, and recorded such amounts as assets restricted for repayment of leasing commitments.

The present value of all future payments to be made by CTA under all its leases of approximately \$1.724 billion is reflected in the accompanying December 31, 2004 statement of net assets as a capital lease obligation.

Commitments and Contingencies

Each of the entities has various commitments that have arisen in the normal course of operations. None is expected to have a material adverse impact on its financial position as presented.

Each of the entities has also established liabilities for potential legal judgments to satisfy claims against the entity.

The RTA has also established a Loss Financing Plan to cover funding of losses incurred by the RTA and the Service Boards over certain established limits.

Cash and Investments

The applicable statutory provisions governing the investment of public funds are found in 30 ILCS 235/0.01, et seq. Each of the Combined Entities has established its own investment policy that is in line with the State statute, or, in some cases, more restrictive.

The Combined Entities have on hand as of December 31, 2004, \$847 million of cash and investments. Of this amount, \$624 million is restricted for self-insurance and other damage reserve liabilities, debt service, health insurance claims, and capital projects. In addition, CTA, Metra, and Pace hold \$2.5 billion of investments in other assets for employee pension benefits, damage liabilities, and capital lease obligations, which are recorded as other assets in the financial statements.

ote 5. General Obligation Bonds Payable

Changes during the year in bonds payable were as follows:

General Obligation	January 1, 2004	New Issues	Current Retirements	December 31, 2004
1990A	\$ 60,795,000			60,795,000
1991A	55,745,000			55,745,000
1992A* and 1992B	62,200,000		4,835,000	57,365,000
1994A* and 1994B	34,365,000		5,645,000	28,720,000
1994C* and 1994D	76,835,000		3,240,000	73,595,000
1996 Refunding	147,430,000		660,000	146,770,000
1997 Refunding	88,025,000		3,980,000	84,045,000
1999* Refunding	291,955,000		645,000	291,310,000
2000A*	252,545,000		4,030,000	248,515,000
2001A*	97,135,000		1,535,000	95,600,000
2001B Refunding	37,220,000		1,340,000	35,880,000
2002A*	157,760,000		2,325,000	155,435,000
2002B	191,280,000		8,900,000	182,380,000
2003A*	260,000,000		550,000	259,450,000
2003B	150,000,000			150,000,000
2003C Refunding	19,055,000		2,745,000	16,310,000
2004A*		260,000,000		260,000,000
Total	\$ 1,982,345,000	260,000,000	40,430,000	2,201,915,000

*Strategic Capital Improvement Program (SCIP) Bonds

At December 31, 2004, the total general obligation bonds payable of \$2,201,915,000 are classified as current and long-term in the Statement of Net Assets in the amounts of \$49,570,000 and \$2,152,345,000, respectively.

Advance Refunding

On June 21, 1993, the RTA advance refunded a portion of its 1990A Series general obligation bond issue. The RTA issued \$23,265,000 of general obligation refunding bonds (1993C Series) to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$20,350,000 of outstanding general obligation bonds (1990A Series) are considered defeased, and therefore, have been removed from the financial statements.

On January 19, 1996, the RTA advance refunded a portion of its 1994B and 1994D Series general obligation bond issues. The RTA issued \$151,235,000 of general obligation refunding bonds (1996 Series) to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$60,300,000 of outstanding general obligation bonds (1994B Series) and \$75,605,000 of outstanding general obligation bonds (1994D Series) are considered defeased, and therefore, have been removed from the financial statements.

On September 18, 1997, the RTA advance refunded a portion of its 1990A, 1991A, 1992B, and 1993B Series general obligation bond issues. The RTA issued \$98,385,000 of general obligation refunding bonds (1997 Series) to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$4,230,000 of outstanding general obligation bonds (1990A Series), \$29,265,000 of outstanding general obligation bonds (1991A Series), \$18,170,000 of outstanding general obligation bonds (1992B Series), and \$47,465,000 of outstanding general obligation bonds (1993B Series) are considered defeased, and therefore, have been removed from the financial statements.

On August 24, 1999, the RTA advance refunded a portion of its 1992A, 1993A, 1994A, and 1994C Series general obligation bond issues. The RTA issued \$298,725,000 of general obligation refunding bonds (1999 Series) to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$113,895,000 of outstanding general obligation bonds (1992A Series), \$9,720,000 of outstanding general obligation bonds (1993A), \$142,615,000 of outstanding general obligation bonds (1994A), and \$21,955,000 of outstanding general obligation bonds (1994C) are considered defeased, and therefore, have been removed from the financial statements.

On March 1, 2001, the RTA advance refunded a portion of its 1993A Series general obligation bond issues. The RTA issued \$37,715,000 of general obligation refunding bonds (2001B Series). Proceeds from the issuance amounted to \$40,437,798, which includes a premium of \$2,554,206. The proceeds are to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$37,750,000 of outstanding general obligation bonds (1993A) are considered defeased, and therefore, have been removed from the financial statements.

On May 1, 2003, the RTA advance refunded a portion of its 1993C Series general obligation bond issues. The RTA issued \$19,055,000 of general obligation refunding bonds (2003C Series) to provide resources to fund an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. At December 31, 2004, \$19,150,000 of outstanding general obligation bonds (1993C) are considered defeased, and therefore, have been removed from the financial statements.

Debt Service Requirements

The “debt service requirements” set forth in the following tables represent payments due the trustee from the RTA, as required by the respective bond agreements. Differences, if any, between debt service amounts presented in the following tables and the amounts presented in the financial statements represent timing differences. Also, investment income earned in the capital projects and debt service accounts may lower actual cash transfers from the General Fund.

1990 General Obligation Bonds

In May 1990, the RTA issued \$100 million in General Obligation Bonds, Series 1990A, to establish a Capital Projects Fund to provide the source of paying costs of the Capital Program for the Service Boards.

The Series 1990A Bonds mature on November 1 over a 30-year period and interest is payable at rates ranging from 6.00% to 7.15% on November 1, 1990 and semiannually thereafter on May 1 and November 1 in each remaining year.

Debt service requirements on the Series 1990A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$	4,377,240	4,377,240
2006		4,377,240	4,377,240
2007		4,377,240	4,377,240
2008		4,377,240	4,377,240
2009		4,377,240	4,377,240
2010 – 2014	22,005,000	18,937,800	40,942,800
2015 – 2019	31,150,000	9,789,840	40,939,840
2020	7,640,000	550,080	8,190,080
Total	\$ 60,795,000	51,163,920	111,958,920

1991 General Obligation Bonds

In November 1991, the RTA issued \$100 million in General Obligation Bonds, Series 1991A, to replenish the Capital Projects Fund and to provide the source for paying costs of the Capital Program for the Service Boards.

The Series 1991A Bonds mature on November 1 over a 30-year period and interest is payable at rates ranging from 4.85% to 6.55% on May 1, 1992 and semiannually thereafter on November 1 and May 1 in each remaining year.

Debt service requirements on the 1991 A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$	3,734,916	3,734,916
2006		3,734,914	3,734,914
2007		3,734,914	3,734,914
2008		3,734,915	3,734,915
2009		3,734,915	3,734,915
2010 – 2014	13,115,000	17,834,059	30,949,059
2015 – 2019	28,420,000	10,719,665	39,139,665
2020 – 2021	14,210,000	1,443,515	15,653,515
Total	\$ 55,745,000	48,671,813	104,416,813

1992 General Obligation Bonds

In June 1992, the RTA issued \$188 million in General Obligation Bonds, Series 1992A, to pay the cost of purchasing and reconstructing railcars for Metra. The RTA also issued \$30 million in General Obligation Bonds, Series 1992B, to pay the costs of reconstruction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 1992A and 1992B Bonds mature on June 1 over a 30-year period and interest is payable at rates ranging from 5.30% to 9.00% on December 1, 1992 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1992A and 1992B Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 5,220,000	4,208,481	9,428,481
2006	5,710,000	3,712,221	9,422,221
2007	6,250,000	3,169,161	9,419,161
2008	6,840,000	2,554,801	9,394,801
2009	7,480,000	1,924,641	9,404,641
2010 – 2022	25,865,000	1,567,559	27,432,559
Total	\$ 57,365,000	17,136,864	74,501,864

1994 General Obligation Bonds

In May 1994, the RTA issued \$195 million in General Obligation Bonds, Series 1994A, to pay the costs of purchasing and reconstructing railcars for Metra. Proceeds of Series 1994A Bonds may also be used to purchase new paratransit vehicles for Pace and for rehabilitation of railcars for the CTA. The RTA also issued \$80 million in General Obligation Bonds, Series 1994B, to pay the costs of reconstruction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 1994A and 1994B Bonds mature on June 1 over a 30-year period and interest is payable at rates ranging from 3.75% to 8.00% on December 1, 1994 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1994A and 1994B Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 4,325,000	2,077,025	6,402,025
2006		1,951,599	1,951,599
2007		1,951,600	1,951,600
2008		1,951,600	1,951,600
2009		1,951,600	1,951,600
2010 - 2024	24,395,000	13,699,000	38,094,000
Total	\$ 28,720,000	23,582,424	52,302,424

In December 1994, the RTA issued \$62 million in General Obligation Bonds, Series 1994C, to pay for capital projects of the Service Boards required by the ADA for vehicle rehabilitation and the construction or renewal of support facilities. The RTA also issued \$130 million in General Obligation Bonds, Series 1994D, to pay for portions of the CTA's rehabilitation of the Green Line elevated structure, track replacement, and repair or replacement of bus supporting services, and for Pace's construction of bus garages and purchase of new buses and paratransit vehicles.

The 1994C and 1994D Bonds mature on June 1 over a 30-year period and interest is payable at rates ranging from 5.30% to 7.75% on June 1, 1995 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1994C and 1994D Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 3,505,000	5,567,794	9,072,794
2006	3,790,000	5,285,112	9,075,112
2007	4,095,000	4,979,569	9,074,569
2008	4,420,000	4,649,612	9,069,612
2009	1,500,000	4,420,213	5,920,213
2010 - 2014	9,515,000	20,081,219	29,596,219
2015 - 2019	43,250,000	10,262,937	53,512,937
2020 - 2025	3,520,000	136,401	3,656,401
Total	\$ 73,595,000	55,382,857	128,977,857

1996 General Obligation Refunding Bonds

In January 1996, the RTA issued \$151 million in General Obligation Bonds, Series 1996, to provide funds to refund in advance of maturity the RTA's outstanding Series 1994B Bonds, maturing June 1 in the years 2005-2009, 2012, 2015, and 2024, in the aggregate amount of \$60 million and Series 1994D Bonds, maturing June 1 in the years 2009-2014 and 2025, in the aggregate amount of \$76 million.

The Series 1996 Refunding Bonds mature on June 1 over a 22-year period and interest is payable at rates ranging from 5.125% to 5.50% on June 1, 1996 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1996A Refunding Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 2,470,000	7,967,813	10,437,813
2006	2,590,000	7,838,150	10,428,150
2007	2,725,000	7,701,953	10,426,953
2008	2,865,000	7,558,709	10,423,709
2009	6,280,000	7,324,369	13,604,369
2010 - 2014	36,845,000	31,132,092	67,977,092
2015 - 2019	13,860,000	24,420,870	38,280,870
2020 - 2024	68,975,000	12,931,660	81,906,660
2025	10,160,000	284,480	10,444,480
Total	\$ 146,770,000	107,160,096	253,930,096

1997 General Obligation Refunding Bonds

In September 1997, the RTA issued \$98 million in General Obligation Bonds, Series 1997, to provide funds to refund in advance of maturity the RTA's outstanding Series 1990A Bonds, maturing November 1 in the years 2001-2002, in the aggregate amount of \$4 million, Series 1991A Bonds, maturing November 1 in the years 2002-2006, 2008, and 2011, in the aggregate amount of \$29 million, Series 1992B Bonds, maturing June 1 in the years 2015 and 2022, in the aggregate amount of \$18 million, and Series 1993B Bonds, maturing June 1 in the years 2004-2009, 2013, and 2023, in the aggregate amount of \$47 million.

The Series 1997 Refunding Bonds mature on June 1 over a 26-year period and interest is payable at rates ranging from 4.00% to 6.00% on December 1, 1997 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1997A Refunding bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 4,190,000	4,690,350	8,880,350
2006	4,400,000	4,475,600	8,875,600
2007	4,625,000	4,249,975	8,874,975
2008	4,875,000	4,000,288	8,875,288
2009	5,155,000	3,724,463	8,879,463
2010 - 2014	19,910,000	14,797,851	34,707,851
2015 - 2019	21,210,000	9,237,600	30,447,600
2020 - 2025	19,680,000	2,235,900	21,915,900
Total	\$ 84,045,000	47,412,027	131,457,027

1999 General Obligation Refunding Bonds

In August 1999, the RTA issued \$299 million in General Obligation Bonds, Series 1999, to provide funds to refund in advance of maturity the RTA's outstanding Series 1992A Bonds, maturing June 1 in the years 2015 and 2022, in the aggregate amount of \$114 million, Series 1993A Bonds, maturing June 1 in the years 2009 and 2013, in the aggregate amount of \$10 million, Series 1994A Bonds, maturing June 1 in the years 2006-2009, 2012, 2015, and 2024, in the aggregate amount of \$143 million, and Series 1994C Bonds, maturing June 1 in the year 2025, in the aggregate amount of \$22 million.

The Series 1999 Refunding Bonds mature on June 1 over a 25-year period and interest is payable at rates ranging from 5.00% to 6.00% on December 1, 1999 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 1999 Refunding Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 670,000	16,605,012	17,275,012
2006	5,135,000	16,459,887	21,594,887
2007	5,395,000	16,196,637	21,591,637
2008	5,665,000	15,920,137	21,585,137
2009	7,670,000	15,586,762	23,256,762
2010 – 2014	60,340,000	69,842,477	130,182,477
2015 – 2019	83,240,000	48,859,576	132,099,576
2020 – 2024	118,975,000	17,177,193	136,152,193
2025	4,220,000	126,600	4,346,600
Total	\$ 291,310,000	216,774,281	508,084,281

2000 General Obligation Bonds

In June 2000, the RTA issued \$260 million in General Obligation Bonds, Series 2000A, to pay the costs of construction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 2000A Bonds mature on July 1 over a 30-year period and interest is payable at rates ranging from 5.75% to 6.25% on January 2001 and semiannually thereafter on July 1 and January 1 in each remaining year.

Debt service requirements on the Series 2000A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 4,245,000	15,640,225	19,885,225
2006	4,480,000	15,396,138	19,876,138
2007	4,730,000	15,138,538	19,868,538
2008	4,995,000	14,866,563	19,861,563
2009	5,275,000	14,579,350	19,854,350
2010 – 2014	31,335,000	67,842,189	99,177,189
2015 – 2019	41,905,000	56,872,376	98,777,376
2020 – 2024	56,560,000	42,063,939	98,623,939
2025 – 2029	76,650,000	21,514,025	98,164,025
2030	18,340,000	1,192,100	19,532,100
Total	\$ 248,515,000	265,105,443	513,620,443

2001 General Obligation Bonds

In April 2001, the RTA issued \$100 million in General Obligation Bonds, Series 2001A, to pay the costs of construction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 2001A Bonds mature on July 1 over a 30-year period and interest is payable at rates ranging from 5.0% to 6.0% on January 2001 and semiannually thereafter on July 1 and January 1 in each remaining year.

Debt service requirements on the Series 2001A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 1,610,000	5,608,238	7,218,238
2006	1,695,000	5,527,738	7,222,738
2007	1,785,000	5,442,988	7,227,988
2008	1,880,000	5,344,813	7,224,813
2009	1,980,000	5,241,413	7,221,413
2010 – 2014	11,665,000	24,395,702	36,060,702
2015 – 2019	15,340,000	20,427,175	35,767,175
2020 – 2024	20,195,000	15,546,850	35,741,850
2025 – 2029	26,590,000	8,819,400	35,409,400
2030 – 2031	12,860,000	1,167,900	14,027,900
Total	\$ 95,600,000	97,522,217	193,122,217

In March 2001, the RTA issued \$38 million in General Obligation Bonds, Series 2001B, to provide funds to refund in advance of maturity the RTA's outstanding series 1993A Bonds, maturing June 1 in the years 2004-2008, in the aggregate amount of \$38 million.

The Series 2001B Refunding Bonds mature on June 1 over a 23-year period and interest is payable at rates ranging from 4.00% to 5.50% on June 1, 2001 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 2001B Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 1,410,000	1,899,975	3,309,975
2006	1,485,000	1,827,600	3,312,600
2007	1,555,000	1,755,488	3,310,488
2008	1,630,000	1,679,750	3,309,750
2009		1,639,000	1,639,000
2010 – 2014	2,295,000	8,131,888	10,426,888
2015 – 2019	13,585,000	5,778,714	19,363,714
2020 – 2023	13,920,000	1,584,276	15,504,276
Total	\$ 35,880,000	24,296,691	60,176,691

2002 General Obligation Bonds

In March 2002, the RTA issued \$160 million in General Obligation Bonds, Series 2002A, to pay the costs of construction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 2002A Bonds mature on July 1 over a 30-year period and interest is payable at rates ranging from 5.0% to 6.0% on July 1, 2002 and semiannually thereafter on January 1 and July 1 in each remaining year.

Debt service requirements on the Series 2002A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 2,430,000	9,082,688	11,512,688
2006	2,555,000	8,961,188	11,516,188
2007	2,690,000	8,833,438	11,523,438
2008	2,835,000	8,698,938	11,533,938
2009	2,985,000	8,557,188	11,542,188
2010 - 2014	17,550,000	40,248,614	57,798,614

2020 - 2024	30,535,000	26,937,900	57,472,900
2025 - 2029	40,450,000	16,654,200	57,104,200
2030 - 2032	30,335,000	3,708,300	34,043,300
Total	\$ 155,435,000	166,317,504	321,752,504

In June 2002, the RTA issued \$200 million in General Obligation Bonds, Series 2002B, to provide interim funding, as needed, for a portion of the costs in connection with the reconstruction and expansion of rapid transit facilities operated by the CTA and to fund other public transportation projects.

The Series 2002B Bonds mature on June 1 over a 17-year period and interest is payable at rates ranging from 3.00% to 5.50% on December 1, 2002 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 2002B Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 9,125,000	9,501,213	18,626,213
2006	9,400,000	9,038,088	18,438,088
2007	9,710,000	8,560,338	18,270,338
2008	10,060,000	8,053,513	18,113,513
2009	10,450,000	7,515,125	17,965,125
2010 - 2014	59,245,000	28,344,788	87,589,788
2015 - 2019	74,390,000	10,379,663	84,769,663
Total	\$ 182,380,000	81,392,728	263,772,728

In May 2003, the RTA issued \$260 million in General Obligation Bonds, Series 2003A, to pay the costs of construction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 2003A Bonds mature on July 1 over a 30-year period and interest is payable at rates ranging from 2.0% to 5.5% on January 1, 2004 and semiannually thereafter on January 1 and July 1 in each remaining year.

Debt service requirements on the Series 2003A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 4,010,000	14,538,175	18,548,175
2006	4,130,000	14,377,775	18,507,775
2007	4,335,000	14,212,575	18,547,575
2008	4,555,000	13,995,825	18,550,825
2009	4,790,000	13,768,075	18,558,075
2010 - 2014	28,100,000	64,981,875	93,081,875
2015 - 2019	36,700,000	56,640,600	93,340,600

2008	2,675,000	7,763,925	10,438,925
2009	2,810,000	7,654,225	10,464,225
2010 - 2014	16,370,000	36,124,063	52,494,063
2015 - 2019	21,190,000	31,078,002	52,268,002
2020 - 2024	27,545,000	24,413,239	51,958,239
2025 - 2029	35,820,000	15,710,520	51,530,520
2030 - 2033	36,255,000	4,306,320	40,561,320
Total	\$ 150,000,000	150,950,269	300,950,269

In May 2003, the RTA issued \$19 million in General Obligation Bonds, Series 2003C, to provide funds to refund in advance of maturity the RTA's outstanding series 1993C Bonds, maturing June 1 in the years 2004-2009, in the aggregate amount of \$19 million.

The Series 2003C Bonds mature on July 1 over a six-year period and interest is payable at rates ranging from 2.0% to 5.0% on January 1, 2004 and semiannually thereafter on January 1 and July 1 in each remaining year.

Debt service requirements on the Series 2003C Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 2,995,000	754,400	3,749,400
2006	3,115,000	634,600	3,749,600
2007	3,240,000	510,000	3,750,000
2008	3,395,000	348,000	3,743,000
2009	3,565,000	178,250	3,743,250
Total	\$ 16,310,000	2,425,250	18,735,250

2004 General Obligation Bonds

In October 2004, the RTA issued \$260 million in General Obligation Bonds, Series 2004A, to pay the costs of construction, acquisition, repair, and replacement of certain public transportation facilities for the Service Boards.

The Series 2004A Bonds mature on June 1 over a 30-year period and interest is payable at rates ranging from 5.0% to 5.75% on June 1, 2005 and semiannually thereafter on June 1 and December 1 in each remaining year.

Debt service requirements on the Series 2004A Bonds to maturity are set forth below:

Year	Debt Service Requirements		
	Principal	Interest	Total
2005	\$ 1,010,000	17,318,512	18,328,512
2006	3,985,000	14,170,413	18,155,413
2007	4,190,000	13,966,038	18,156,038
2008	4,405,000	13,751,163	18,156,163
2009	4,635,000	13,525,163	18,160,163
2010 – 2014	26,985,000	63,808,315	90,793,315
2015 – 2019	34,730,000	55,523,207	90,253,207
2020 – 2024	45,120,000	44,515,863	89,635,863
2025 – 2029	58,660,000	30,575,413	89,235,413
2030 – 2034	76,280,000	11,425,825	87,705,825
Total	\$ 260,000,000	278,579,912	538,579,912

All the bonds are recorded as current and long-term liabilities, as applicable, of the governmental activities in the government-wide statement of net assets, and are general obligations of the RTA to which the full faith and credit of the RTA are pledged. The bonds are payable from all revenues and all other funds received or held by the RTA (except amounts in the Joint Self-Insurance Fund and amounts required to be held or used with respect to separate ordinance obligations) that lawfully may be used for retiring the debt.

The bonds are secured by an assignment of a lien on the sales taxes imposed by the RTA. All sales tax receipts are to be paid directly to the trustee by officials of the State. If, for any reason, the required monthly debt service payment has not been made by the RTA, the trustee is to deduct it from the sales tax receipts. If all payments have been made, the funds are made available to the RTA for regular use.

Under the RTA Act, the Service Boards' farebox receipts and funds on hand are not available for payment of debt service.

In the Debt Service Fund, \$64,727,176 in investments is available to service principal and interest payments of the RTA's long-term debt as of December 31, 2004.

Note 10. Pension

All eligible employees of the Combined Entities are covered under a pension plan. RTA employees, as well as nonunion employees of Metra and Pace, are covered under the RTA Pension Plan, which is a multi-employer, noncontributory, defined benefit cost sharing plan and trust. The union employees of Metra and Pace are covered under various other plans as are required by their collective bargaining agreements.

The CTA maintains two single-employer defined benefit pension plans, the Employees' Retirement Plan and the Supplemental Retirement Plan, covering substantially all full-time permanent union and nonunion employees and Chicago Transit Board members. The Employees' Retirement Plan is governed by the terms of the employees' collective bargaining agreement. The

Supplemental Retirement Plan, which includes the Retirement Plan for Board Members and the Supplemental Retirement Plan for selected Officers, Executives, Supervisory, and Professional Employees, provides benefits, in addition to the Employees' Retirement Plan, to management employees in certain employment classifications and Chicago Transit Board members.

Note 11. Region-Wide Financial Information

The RTA management has elected to present certain region-wide financial information. The purpose of this information is to provide a total overview of transportation-related operations in the Northeastern Illinois region. This information includes the transportation-related results of the Service Boards' affiliated carriers. Accordingly, this region-wide information is presented in the combining region-wide schedules of revenues and expenditures and the combining region-wide statement of revenues and expenditures—budget and actual.

The basic financial statements of RTA and the Service Boards used to prepare the combining statement of revenues and expenses do not include the aggregate of system-generated revenues and costs. The combining region-wide schedules of revenues and expenditures include the aggregate of all system-generated revenues and costs.

For purposes of the system-generated revenues recovery ratio calculation, the Act requires that the costs used in the calculation include all operating costs consistent with accounting principles generally accepted in the United States, with certain allowable adjustments as enumerated in the Act. Costs funded by federal capital grants are recorded as capital assets, and are excluded from the recovery ratio calculation as required by the Act.

The Act requires that the aggregate of all system-generated revenues equal at least 50% of the aggregated costs of providing such public transportation. This concept is described as the "system-generated revenues recovery ratio."

For 2004, the region-wide system-generated revenues recovery ratio is calculated from the combining region-wide schedules of revenues and expenditures—(budget and actual budget basis) as follows (in thousands):

System-Generated Revenues Recovery Ratio	Revenues	Expenditures
CTA*	\$ 523,180	945,437
Metra**	253,856	444,707
Pace***	63,058	151,176
RTA****	31,710	23,722
Total	\$ 871,804	1,565,042

The region-wide system-generated revenues recovery ratio for 2004 equals 55.70%.

* The system-generated revenues recovery ratio for the CTA included leasehold revenues of \$4,262 and excluded CTA expenditures for security costs of \$10,200. It also included in-kind services of \$22,000, both as revenues and expenditures.

** With respect to Metra, \$9,075 of capital farebox financing was included in revenues. Metra's \$5,000 security costs, \$13,710 costs for lease of transportation facilities, and \$2,795 for funded depreciation to carriers were deducted from expenditures.

*** Pace included in-kind services of \$3,955, both as revenues and expenditures.

**** The RTA added back \$8.569 million unrealized loss on swap valuation to its revenues. Also, the RTA excluded all capital-related expenses of \$877 thousand.

These are allowable adjustments for the revenues recovery ratio computation per the Act. These adjustments are reflected in the region-wide information.

Reconciliation of Government-Wide to Region-Wide Revenues and Expenditures

RTA's government-wide financial statements do not include fiduciary fund financial statement information that is added in the region-wide presentation. As also stated in Note 11, in-kind services are added in the system-generated revenues and expenditures.

The following data (in thousands) reconciles the combining government-wide to region-wide schedules of revenues and expenditures:

In thousands	RTA	CTA	Metra	Pace
Government-wide revenues (page 35)	\$ 389,666	1,554,694	891,675	165,967
Federal operating grants				7,213
Sales tax agency fund	614,698			
Pension trust fund	14,479			
In-kind services		22,000		3,955
Unrealized loss on swap valuation	8,569			
Region-wide revenues (page 36)	1,027,412	1,576,694	891,675	177,135
Government-wide expenditures (page 35)	648,161	1,593,427	657,073	187,004
Sales tax agency fund	614,738			
Pension trust fund	5,616			
In-kind services		22,000		3,955
Security costs		(14,895)	(5,000)	
Lease of transportation facilities			(13,710)	
Capital (depreciation, disposals/additions)	(877)		(2,795)	
Region-wide expenditures (page 36)	1,267,638	1,600,532	635,568	190,959
Net revenues (expenditures)	\$ (240,226)	(23,838)	256,107	(13,824)

Subsequent Events

On March 24, 2005, the RTA sold a fixed-to-floating swaption having a notional value of \$52 million and an expiration of February 2006. The RTA received a fee of \$902,000.

On March 29, 2005, the RTA entered into one basis swap with a notional value of \$52 million. The agreement will amortize to its July 2023 expiration. It is intended to reduce interest obligations calculated on a variable rate should existing swaptions be exercised.

On May 2, 2005, Series 1996, \$146.7 million at December 31, 2004, was defeased by the issuance of Series 2005B, \$148.1 million floating-rate bonds.

On June 1, 2005, a floating-to-fixed option, notional value \$148.5 million, was exercised. The swap will amortize to its expiration date, June 2025.

Comparison of Sales Tax Revenue to Debt Service Requirements

1995-2004
In thousands

As defined in the Bond and Note General Ordinance, ordinance 85-39, Section 909 (3), revenue test required that all RTA revenues “shall equal or exceed two and one-half (2.5) times the maximum annual debt service requirements.” In the graph presented above, the RTA compares 2.5 times debt service requirement to sales tax revenues, a major RTA revenue. In effect, the RTA significantly exceeds the revenue test defined in the ordinance.

Comparison of Sales Tax Revenue to Debt Service Requirements

Last 10 Years In thousands	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004
Sales Tax Revenue	\$ 513,301	532,304	555,496	576,704	613,514	650,284	653,522	647,685	654,985	675,628
Debt Service Requirement	76,550	77,639	78,359	77,883	77,866	81,676	95,187	113,526	140,607	159,702
2.5 Times Debt Service Requirement	191,375	194,098	195,898	194,708	194,665	204,190	237,968	283,815	351,518	399,255

Differences, if any, between debt service amounts presented above and amounts presented in the accompanying financial statements represent timing differences between payments made to trustees and payments made to bondholders. Also, investment income earned in the debt service accounts may lower actual cash transfers from the General Fund.

Chicago Transit Authority, Commuter Rail Division
2004

Chicago Transit Authority

- 7 rail routes
- 144 stations served
- 1,190 rapid transit cars
- 12.4 million riders per month
- 152 bus routes
- 2,012 buses
- 24.5 million riders per month
- 184 thousand riders per month

Metra Commuter Rail Division

- 546 route miles
- 1,189 miles of track
- 243 stations
- 144 locomotives
- 813 passenger cars
- 243 electric cars
- 707 weekly trains operated
- 96.9% on-time performance
- 6.2 million riders per month (excluding 79% South Shore)

Pace Suburban Bus Division

- 159 regular routes
- 58 feeder routes
- 4 subscription routes
- 15 shuttle routes
- 602 vehicles in use during peak periods
- 2.6 million riders per month
- 62 local services
- 354 Pace-owned lift-equipped buses in service
- 210 communities served
- 125 thousand riders per month
- 478 vanpools in operation
- 118 thousand riders per month
